

# Prototype B Low Fidelity Prototype Ideas

Team B: Jonathan, Sandra,  
Tyler

# How Sprint Was Completed

Team members created a variety of features for the three prototype ideas

Each Contains Ideas, Features, and/or Wireframe sketches

These are low fidelity and at this point, we are looking for input if you have any

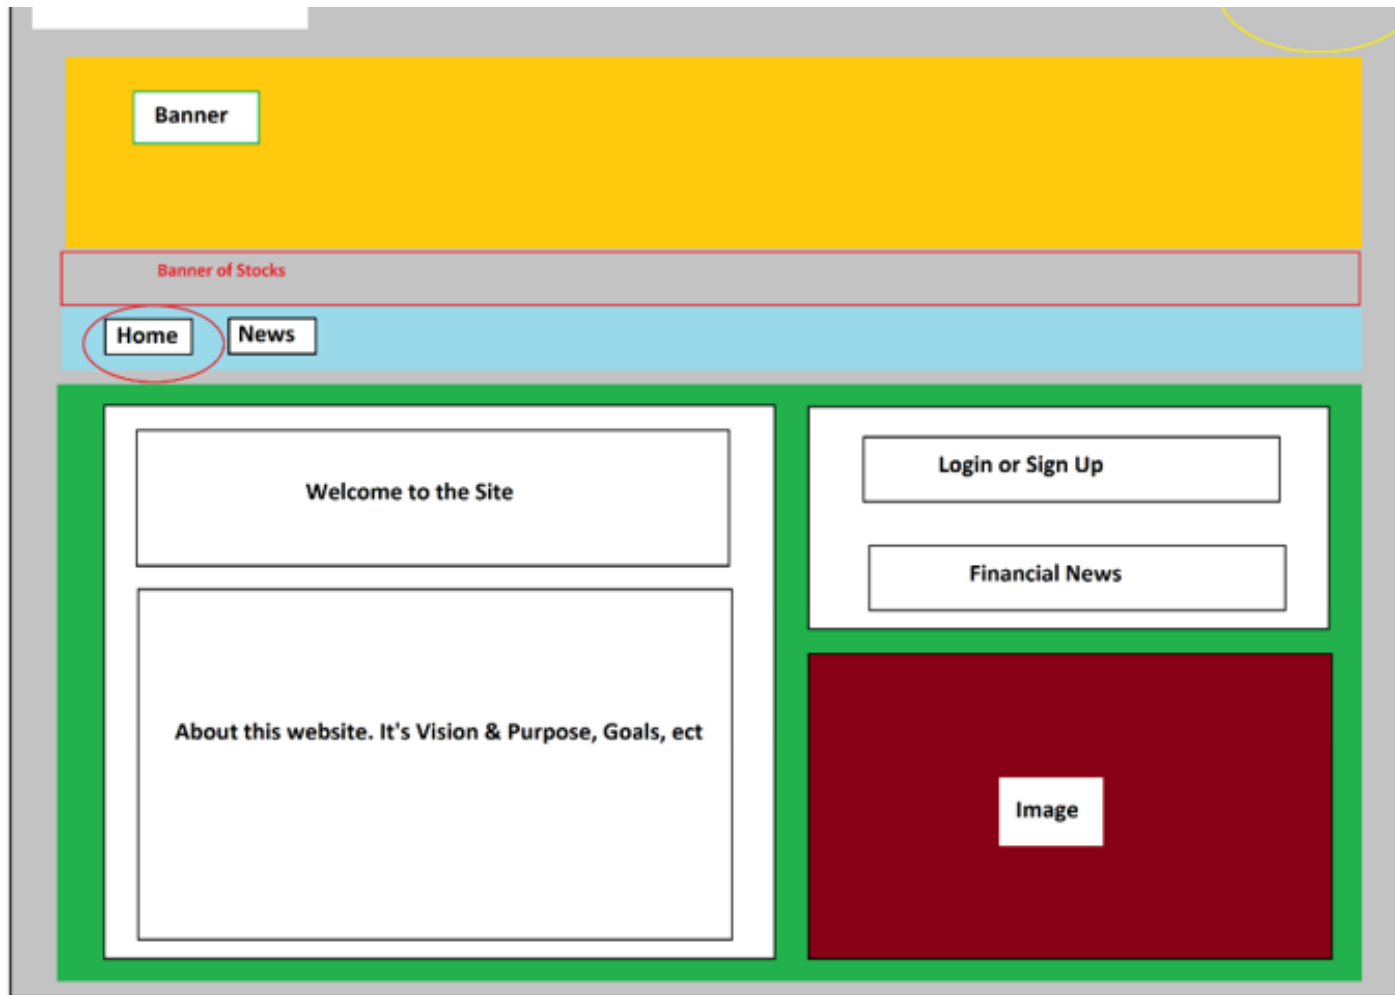

Our eventual goal after today is to bring our ideas together as a team to create a new prototype

In Sprint #3, which is scheduled to end on April 11 (I believe), we will work together to develop a high fidelity prototype
